Baby Gets Operation

Angel Notion reaches out to the Community

By Donna Nocero & Angel Notion

Remember Baby Maria Guadalupe? She needs the community to come together once again and give her a chance to continue her life.

She needs your help NOW!

She is only 3 months old. Maria was Born with an Extrofia Vesical (no formed vagina) as well she is in need of Orthopedic surgery to close her spine - her legs stay open. Without it, she will never be able to walk.

Maria was operated on three weeks ago at the Instituto Mexicano de Pediatria in Mexico City. It was urgent surgery for her bladder and vagina. We have just learned the surgery was unsuccessful and she needs another.....

Baby Maria has had many complications and is continuing to fight for her life. She is now fighting a virus and is in need of a blood transfusion.

We need your help in sending the family funds for medicines and hospital requirements and living expenses. It is costing approx. 600 pesos a day and we expect at least another month.

Angelnotion is asking for your help in paying for her expenses.

Please contact Lavonna Directly by cell 044-984-100-5525 or donate by paypal on www.angelnotion.com e-mail: info@angelnotion.com
